To Whom It May Concern:

I have worked with Mark Nolen through a contractual relationship with The Medicus Firm for the past year, and during that time Mark has been very professional, sensitive, and committed to providing our institution with appropriately "screened" physician candidates.

We are a large tertiary hospital with needs in many specialty areas, and Mark has impressed me with his understanding of how hospitals work, and also of what questions to ask physicians as he prepares for which candidates he will present to my attention for review.

I have appreciated Mark's experience and attention to detail, and I have enjoyed and will continue to enjoy a very positive working relationship with him.

Sincerely,

Rick D. Mace
President/CEO
